

Scientific Program

We are working on establishing an enriching scientific program for the XX World Congress of Stereotactic and Functional Neurosurgery, that will cover the latest advancements in Stereotactic and Functional Neurosurgery, exploring cutting-edge technologies, groundbreaking research, and clinical breakthroughs and offers a chance to enhance your knowledge & skills in the field.

The detailed interactive program contains the most up-to-date information. Have a look at the program at a glance to get an overview of the sessions waiting for you.
